

# SCHWINGER

Design Pointhouse

**Seduta monoscocca e base in metallo  
a sbalzo. Rivestimento in tessuto,  
similpelle o vera pelle**

**/Single-piece seat and cantilever  
metallic structure. Fabric,  
similar leather or leather cover**

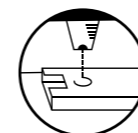

## — SEDIA SCHWINGER / SCHWINGER CHAIR —

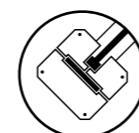

La base è realizzata in tubolare di acciaio a sezione rettangolare, una soluzione che dona leggerezza preservando la robustezza. Il rivestimento della monoscocca è disponibile in tessuto, similpelle o vera pelle. Confortevole ed elegante, adatta per la zona pranzo, ma anche per sale riunioni e spazi pubblici.

*The rectangular section tubular gives lightness to the structure but keeping it's strenght. The seat's cover is avabile in fabric, similar leather or real leather. Comfortable and elegant, it's suited for the dining area as well as meeting rooms and public spaces.*
